

Light Source Specification

UFO MicroLED 1000 Light Source

The UFO MicroLED 1000 light source is a powerful, yet efficient fibre optic light source, powered by LED technology.

This LED light source offers complete two-button control over light output, with the ability to stop on the four main colours (white, red, green and blue). It also allows colour cycling at a choice of three speeds through six colours; red, yellow, green, cyan, blue and violet or through the range of seven colours; red, yellow, green, cyan, blue, violet and white.

Suitable for use in multiple applications, including:

- Sensory harnesses & systems
- Colourchange downlight systems
- Colourchange sparkle ceiling
- Fibre optic sideglow illumination

Description	
Port connector size	30mm diameter
Fibre type	Glass/Polymer
Max no. of fibre tails	900 x 0.75mm
Supply voltage	110VAC 60Hz / 230 VAC 50 Hz
Power supply	External 12V PSU
Power consumption	2-5W in colour cycle mode
Min. ambient temperature	-10°C
Max. ambient temperature	45°C
Operating environment	Indoor / dry
Material	Aluminium
Colour	Anodised silver
Size	100mm (L) x 83mm (W) x 66mm (H)

Like all our range, this light source is undergoing constant improvements and upgrades, so we reserve the right to alter specifications as required. UL approval for this model is currently being processed.
